Marimuthu R

Data Lead · Databricks, Power BI & Data Platforms

Chennai, India (remote) · r2004marimuthu@gmail.com · linkedin.com/in/zeb-mari · github.com/M-Aadhi

SUMMARY

Data Lead who turns scattered operational data into one reliable picture of the business. I own the data warehouse, pipelines and Power BI reporting for a US real estate client, working mostly in Databricks, and I bring engineering discipline (tests, idempotent loads, clear lineage) to business questions people actually need answered.

EXPERIENCE

Data Lead · Zeb 2024 – Present

Real estate client, Texas, USA

- Own the client's data warehouse, ETL pipelines and Power BI reporting.
- Design Databricks pipelines for properties, leases, payments and maintenance data (PySpark, SQL, Delta Lake).
- Partner with operations and finance on KPIs: occupancy, collections and delinquency.
- Replaced spreadsheet reporting with a single governed data model.
- Built data-quality checks that quarantine bad records instead of hiding them.

PROJECTS

Real Estate Databricks Lakehouse · github.com/M-Aadhi/real-estate-databricks-lakehouse

End-to-end medallion lakehouse (Bronze → validation/quarantine → Silver → Gold KPIs) for 100 properties, 1,058 units and 14k+ payments (synthetic data). Idempotent Delta MERGE loads, window-function deduplication and SCD Type 2 tenant history. 60 automated tests at 91% coverage, with CI that needs no workspace credentials.

Databricks · PySpark · Delta Lake · Unity Catalog · pytest · GitHub Actions

Personal portfolio with a private cloud vault

Portfolio site with a scroll-driven creative mode and a private vault: Google Authenticator (TOTP) login verified server-side on a Cloudflare Worker, 8-hour HTTP-only sessions, login rate limiting, and file, image and clipboard sync across devices.

JavaScript · Cloudflare Workers · KV · Playwright

Professional Portfolio Demo Gallery · m-aadhi.github.io/portfolio-demo-gallery

Live gallery of 13 portfolio templates for different professions, with search, filters, template IDs, a weekly release process and automated layout, link and journey tests.

HTML · CSS · JavaScript · Playwright · GitHub Pages

LinkedIn Data Skills & Publishing Workflow

Claude skills that draft and review LinkedIn posts in my own voice and publish through the Publora API, with a human approval step before anything goes out.

Claude skills · Publora API · Python

E-commerce Weekly Briefing

Prototype that turns weekly store data into a short plain-English briefing: KPI calculations and anomaly flags first, then an AI-written summary that cites the source numbers.

Python · SQL · LLM summarisation

SKILLS

Data engineering	Databricks, PySpark, Delta Lake, SQL, data warehousing, data modelling
Analytics & BI	Power BI, DAX, KPI design
Cloud & governance	Azure, Unity Catalog, Cloudflare Workers, AWS basics
Languages	Python, SQL, JavaScript, HTML/CSS
Databases	SQL Server, PostgreSQL
Engineering	Git & GitHub, GitHub Actions, pytest, Playwright, REST APIs
AI	LLM workflows, prompt engineering, Claude / AI agents
